Postponement Announcement

Dear Exhibitors, Visitors and Partners,

Due to the sudden and fierce outbreak of the novel corona virus (2019-nCoV), Chinese government has initiated a first-level response to major public health emergencies. Strict measures have been implemented by the central and regional governments to prevent and control the outbreak.

In order to follow the Shanghai Municipal government's guidelines of epidemic prevention and control, we regret to announce that electronica China, productronica China, LASER World of PHOTONICS CHINA and Vision China (ShangHai) scheduled on March 18-20, 2020 in Shanghai New International Expo Center, will be postponed.

At this critical moment, it's our priority to protect health, safety and success of our exhibitors, visitors and partners. We will work closely with government authorities to evaluate the situation and find a proper time to reschedule the show date. Further information will be released separately.

We've been serving the electronics and photonics industry in China since 2002 and gone through difficulties and harvest times together. We encourage everyone to stay confident and optimistic for the bright future of China and ourselves as well.

Kindly accept our sincere apology for any inconvenience caused by this change, but your safety is our top concern.

Thank you all for your continuous support and we do hope that you will receive this information in time and you are able to make adjustments accordingly.

We are following the current situation very closely and are in contact with the official authorities. As soon as a newer state of knowledge emerges we will inform you and assist you for the new schedule. If you have any question, please also feel free to contact us.

We wish you all the best and good health!

Yours sincerely,

Messe Muenchen Shanghai Co., Ltd.
