New Date and New Venue of Four Shows have been set !

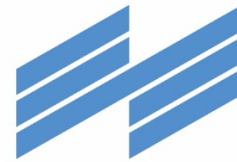

The outbreak of the novel coronavirus (COVID-19) has strongly impacted developments in China. Following the directives of the Government of Shanghai Municipality to prevent and control the virus from spreading, **electronica China**, **productronica China**, **LASER World of PHOTONICS CHINA** and **VisionChina (ShangHai)** were felt compelled at the beginning of February to postpone, which were planned to take place in March. The new date has been set, combined with a unique change in location. The trade fairs will be held from July 3 to 5, 2020 at the National Exhibition and Convention Center (NECC) in Shanghai.

Since the outbreak of the novel coronavirus (COVID-19), more than 300 trade fairs in China have been postponed. Due to the tight schedule of the Shanghai New International Expo Centre (SNIEC) it wasn't possible to find an alternative date at the SNIEC in 2020. After examining carefully all possible dates, **electronica China**, **productronica China** and **LASER World of PHOTONICS CHINA** organized by **Messe Muenchen Shanghai Co., Ltd.** and **VisionChina (ShangHai)** organized by **Messe Muenchen Shanghai Co., Ltd** and **China Machine Vision Industry Union**

Messe München

(CMVU) are decided on a one-time postponement: The trade fairs will take place from July 3 to 5, 2020, at the National Exhibition and Convention Center in Shanghai.

Stephen Lu, Chief Operating Officer of **Messe Muenchen Shanghai Co., Ltd.**, explains: “We are taking the spread of the coronavirus very seriously and have been monitoring the local situation closely. Based on current developments, we are confident that by setting a new date we will create good conditions for staging the trade fairs.” After intense communication with the exhibitors, Stephen Lu believes that “despite the current uncertainties, the importance of our trade fairs at the Shanghai location remains intact. There is still a great demand for participating in the trade fairs.”

Falk Senger, Managing Director of Messe München: “We are pleased to offer our exhibitors and partners a quick and good alternative: China is and remains one of the world’s leading technology locations. We want to give companies from all over the world access to this key market in future, too. We are now looking ahead confidently and working with the electronics and photonics industries to organize a successful electronica China, productronica China and LASER World of PHOTONICS CHINA 2020 in July.”
